

- Conference Results Published 6/9/1988; signed by John R. Ryan, Director, Air Traffic Services, ATO-1
- Issue #70 Helicopter Emergency Medical Evacuation Service (HEMES)/Private Use Issue.
- “We believe that when a public-benefit helicopter proposal is identified, it should be afforded the same consideration in OE studies as a public-use heliport. This would upgrade the level of safety for HEMES heliports to be consistent with that which is afforded public-use facilities. (ATO-250 & AES-250)”
